

Cleaning

1. Electrical parts are not washable.

DANGER

To prevent electric shock, do not immerse electrical components in water.

2. Bricks and non-electrical elements can be washed by hand using warm water (104 degrees Fahrenheit/40 degrees Celsius) and a mild liquid dish detergent. Air dry. Make sure all parts are completely dry before using your LEGO DACTA® Serial Interface.

Serial Interface

Safety Information and Instructions

CAUTION ELECTRIC TOY

Not recommended for children under 8 years of age. As with all electric products, precautions should be observed during handling and use to prevent electric shock.

INPUT: 120 VAC 60 Hz 0.12 A

OUTPUT: 12 VAC 7 VA

Please read through all instructions carefully before assembling and using your new LEGO DACTA® Serial Interface.

 **dacta**®

Attention

It is recommended that the LEGO DACTA® Serial Interface be examined periodically for potential hazards and that any potentially hazardous components be repaired or replaced.

WARNING

The LEGO DACTA® Serial Interface is for indoor use only.
To prevent electric shock, fire, or injury to person:

- Do not immerse electrical components in water;
- Do not expose electrical components to rain or moisture;
- Do not connect this unit to an electrical outlet in the bathroom, near the kitchen sink, or near any other damp area;
- Do not disassemble electrical components; no user serviceable parts are inside;
- Do not connect outputs from two or more transformers directly together, or to other systems where they could be interconnected;
- Do not operate this unit if the power cord is damaged or if the transformer or Serial Interface enclosure is broken.
If the transformer shows any indication of excessive heating, disconnect from 120 VAC household outlet immediately.

Important

The transformer is especially designed for use with the LEGO DACTA® Serial Interface and must never be connected to a calculator, radio, or any other electrical product as they may be damaged.
Always disconnect the transformer from the 120 VAC electrical outlet when your system is not in use.

LIMITED WARRANTY

For a period of one year from the date of original purchase, LEGO Dacta will repair or replace any defective part of your LEGO DACTA® Serial Interface. To qualify for warranty service, you need to provide a sales receipt which includes date of purchase.

LEGO Dacta reserves the right to substitute similar parts for those original parts that are no longer available. LEGO Dacta will not be responsible for parts that have been lost, incorrectly assembled, misused or physically damaged, or for sealed components which have been opened or otherwise damaged, and it reserves the right to assess a charge to cover repair, replacement, postage and handling costs relating to such parts.

IMPLIED WARRANTIES, INCLUDING THOSE OF FITNESS FOR A PARTICULAR PURPOSE AND MERCHANTABILITY (AN UNWRITTEN WARRANTY THAT THE PRODUCT IS FIT FOR ORDINARY USE), ARE LIMITED TO ONE YEAR FROM THE DATE OF ORIGINAL PURCHASE. LEGO DACTA WILL NOT PAY FOR LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF YOUR LEGO PRODUCT, OR PROPERTY DAMAGE CAUSED BY YOUR LEGO PRODUCT OR ITS FAILURE TO WORK, OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This LIMITED WARRANTY gives you specific legal rights, and you may also have other rights which vary from state to state.
